*Releasing the creative power of people with disabilities*

## Arts Unbound winter classes start the week of February 6

Arts Unbound primarily serves people with special needs, but our studio classes are open to everyone. Our classes make great family activities! Cost of class includes all materials, equipment and professional art instruction.

Our classes provide opportunities for self expression, personal achievement and life enrichment that come with mastering art techniques. We also provide the professional training necessary for emerging artists to compete on the retail market and to share their creativity with the world as artists who happen to live with disabilities.

Arts unbound is a qualified provider for the NJ Division of Developmental Disabilities for both group and in-home instruction. We currently serve people in Real Life Choices and other programs.
